EDUCATION

Madhav Institute of Technology and Science
Bachelor of Technology in Mathematics and Computing

Gwalior (MP), India
Sept 2023 – Present

Ebenezer Hr. Sec. School, CBSE
Higher Secondary

Gwalior (MP), India
April 2023

Pragati Vidya Peeth Morar, CBSE
High School

Gwalior (MP), India
March 2021

SKILLS SUMMARY

- **Languages:** C, JavaScript, HTML5, CSS3
- **Frontend:** React.js, Vite, Tailwind CSS
- **Backend:** Node.js, Express.js, JWT Authentication, REST API Design
- **Databases:** MongoDB (Mongoose, Geospatial Queries), Firebase (Realtime Database, Firestore, Authentication)
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Render, MongoDB Atlas, Firebase Hosting
- **Core Concepts:** Data Structures & Algorithms, Time Complexity Analysis (Big-O), Automated Testing (Vitest), Cloud Computing Fundamentals (IaaS/PaaS/SaaS, Virtualization)

PROJECTS

RaktSetu — Emergency Blood Donor Network | 🐙 *React, Node.js, Express, MongoDB, JWT* | [Live Site](#) 🌐 **Aug 2026**

- Replaced slow, easy-to-miss email alerts with real-time MongoDB geospatial matching, surfacing a ranked, callable donor list on-screen instantly.
- Encoded a real medical constraint (90-day donation eligibility) into the matching engine; validated correctness with 17 automated tests (Vitest) covering compatibility and geo-distance logic.
- Solved zero-match dead-ends in low-donor-density areas with automatic 4-tier radius escalation (10km→100km), increasing match coverage while preserving donor proximity.
- Built secure JWT auth with a token-based password reset flow and rate limiting; deployed across a 3-service free-tier stack (Vercel/Render/Atlas) with zero committed secrets.

SmartPark – Real-Time Parking Management System | 🐙 *JavaScript, Firebase, HTML5, CSS3* | [Live Site](#) 🌐 **Jan 2026**

- Found and fixed a critical session-isolation bug causing booking data to leak across accounts after logout/login by re-architecting the app's state management.
- Synced 300 parking slots across 3 floors in real time via Firebase Realtime Database; stress-tested with 50 concurrent writes at 100% success, zero conflicts.
- Built a single-page booking flow with live slot selection, duration, and pricing calculation, eliminating page reloads from the core user journey.
- Deployed to production on Firebase Hosting with write-validated security rules and a public GitHub repo, owning the full build-to-deploy lifecycle independently.

EXTRACURRICULARS

Public Relations Representative | Mood Indigo, IIT Bombay **Aug 2025 – Dec 2025**

- Ranked 6th out of 530 participants pan-India in digital outreach and engagement for the 55th edition of Mood Indigo, IIT Bombay — Asia's largest college cultural festival — accumulating 74,090 points.

Core Team Member | Soft Computing Research Society (SCRS) **Sept 2025 – Present**

- Spearheaded planning and execution of technical workshops for 100+ student attendees, owning end-to-end logistics and coordinating a 20-member core committee.

CERTIFICATIONS

Cloud Computing | NPTEL | Score: 82% **May 2026**
Cloud service models (IaaS, PaaS, SaaS), virtualization, multi-cloud deployment strategies

Introduction to Algorithms and Analysis | NPTEL | Score: 75% **November 2025**
Sorting algorithms, recursion, Big-O complexity analysis
